PUBLIC SERVICE COMMISSION MANAGER

BY: Sharon Heller
PUBLIC SERVICE COMMISSION MANAGER

P.S.C. Ky. No. 2Revised Sheet No. 2Cancelling P.S.C. Ky. No. 1Original Sheet No. 2DEWITT WATER DISTRICTRULES AND REGULATIONS3. Conflict

In case of conflict between any provisions of any rate schedule and the schedule of rules and regulations, the rate schedule shall apply. Also, should the rules contained herein conflict with rules in effect under 807 KAR 5, the provisions of 807 KAR 5 shall take precedence over those contained herein.

4. Application for Service

Any person, firm, agency or governmental entity within the current boundary of the District may request service. Applications for service must be in writing on a form approved by the District.

Each applicant for service shall be required to execute and sign the District's standard application for water service before service is supplied by the District. A 5/8"x3/4" meter shall be the standard customer service meter and should be installed at all points of service unless the customer provides sufficient justification for the installation of a larger meter.

5. Point of Delivery

The point of delivery is the point where the meter or vault is located on the customer's premises. All water lines, plumbing, and equipment beyond the meter shall be installed and maintained by the customer. The District reserves the right to determine the location of point of delivery with full regard to those wishes of the prospective customer.

6. Non-Standard Service

Each prospective customer requiring a non-standard service (other than a 5/8"x3/4" meter) shall present to the District sufficient justification for same.

Name of Officer Title Address

P.S.C. Ky. No. 2Revised Sheet No. 3DEWITT WATER DISTRICTCancelling P.S.C. Ky. No. 1Original Sheet No. 3RULES AND REGULATIONS7. Customer's Service Line

All service lines beyond the metering point should be installed of material consisting of copper, galvanized, or PVC pipe with rating not less than 200 psi. The size of the service line beyond the point of delivery should not be less than 3/4" except under unusual circumstances which shall be clearly defined. The District will not set a meter at a point that does not deliver 30 psi at the meter.

Should an applicant desire a higher pressure due to his location or need, he may make provision for an individual pressure booster system. The manner of connection, location cross-connection protection and type is subject to approval by the District. The District reserves the right to require discontinuance and disconnection should the private booster system have a detrimental effect on District's system.

8. Ownership of Mains, Services & Appurtenances

All mains, fire hydrants, valves, crossings and other appurtenances are and shall remain the property of the District, whether installed by the District or the customer.

All service lines from main to meter with appurtenances shall be and remain the property of the District, whether installed by the District or the customer.

The customer shall install, own and maintain his service line from meter and/or point of delivery as defined herein.

9. Discontinuance of Service by District

Water service may be discontinued by the District for any violation of any rule, regulation, or condition and especially for any of the following reasons.

- A. Misrepresentation in the application or contract as to the property or fixtures to be supplied or additional use to be made of water. Customer will be notified within 24 hours as to the reason for disconnection.

- B. Resale of water.
- C. Waste or misuse of water due to improper or imperfect service pipes and/or failure to keep such pipes in a suitable state of repair.
- D. Tampering with meter, meter seal, service, or valves, or permitting such tampering by others.
- E. Connection, cross-connection, or permitting the same, of any separate water supply to premises which receive water from the District.
- F. Non-payment of bills., but not prior to five days after deliverance of termination notice.
- G. When a dangerous condition is found to exist on the customer's or applicant's premises, with reference to the continuation of water service, water service shall be cut off or refused, provided the District shall notify the customer or applicant immediately of the reasons for the discontinuance or refusal and the corrective action to be taken by the applicant or customer before service can be restored.

10. Billing

Bills and notices relating to the conduct of the business of the District will be mailed to the customer at the address listed on the "User's Agreement" unless a change of address has been filed in writing with the District; and the District shall not otherwise be responsible for delivery of any bill or notice nor will the customer be excused from the payment of any bill or any performance required in said notice.

Bills for water service are due and payable at the Office of the District, located on Hwy. 930 between Artemus and Himyar, Kentucky. The past due date shall be the tenth (10th) day after the date of issue. Bills will be dated and mailed on or about the last day of each month, with payment due by the tenth day of each month.

A bill not paid on or before the tenth shall be deemed delinquent. When a bill has been delinquent for a period of ten (10) days,

RULES AND REGULATIONS

The District shall serve the delinquent customer a written final notice of said delinquency, and of the intent of the District to discontinue service ten days after the date of such notice unless such bill is paid prior to the expiration of such ten days. If a delinquent bill is not paid within ten days after date of such final notice, the water supply to the customer may be discontinued without further notice; provided, however, if, prior to discontinuance of service, there is delivered to the District, or its employee empowered to discontinue service, a written certificate signed by a physician, a registered nurse, or public health officer that, in the opinion of the certifier, discontinuance of service will aggravate an existing illness or infirmity of the affected premises, service shall not be discontinued until the affected resident can make other living arrangements or until ten (10) days elapse from the time of the District's receipt of said certification, whichever occurs first.

11. Discontinuance of Service by Customer

Any Customer having fulfilled his/her contract terms and desiring to discontinue the water service to his/her premises for any reason must give notice of discontinuance in writing at the business office of the District at least three (3) days prior to the date on which the customer desires to discontinue service. If such notice in writing is not given, a customer shall remain liable for all water used and service rendered to his premises by the District until said notice is received by the District.

12. Reconnection Fee

Where the water supply to the customer has been discontinued for non-payment of delinquent bills, a charge of \$20.00 will be made for reconnection of water service, but the reconnection will not be made until all delinquent bills and other charges, if any, owed by the customer to the District have been paid.

RULES AND REGULATIONS

DEPOSITS

The District may require a minimum cash deposit or other guaranty to secure payment of bills. Service may be refused or discontinued for failure to pay the requested deposit. Interest, as prescribed by KRS 74.050, will be paid annually either by refund or credit to the customer's bill, except that no refund or credit will be made if the customer's bill is delinquent on the anniversary date of the deposit.

The deposit may be waived upon a customer's showing of satisfactory credit or payment history, and required deposits will be returned after one (1) year if the customer has established a satisfactory payment record for that period. If a deposit has been waived or returned and the customer fails to maintain a satisfactory payment record, a deposit may then be required. The District may require a deposit in addition to the initial deposit if the customer's classification of service changes or if there is a substantial change in usage. Upon termination of service, the deposit, any principal amounts, and any interest earned and owing will be credited to the final bill with any remainder refunded to the customer.

In determining whether a deposit will be required or waived, the following criteria will be considered:

1. Previous payment history with the District. If the customer has no previous history with the District, statements from other utilities, banks, etc. may be presented by the customer as evidence of good credit.
2. Whether the customer has an established income or line of credit.
3. Length of time the customer has resided or been located in the area.
4. Whether the customer owns property in the area.
5. Whether the customer has filed bankruptcy proceedings within the last seven years.
6. Whether another customer with a good payment history is willing to sign as a guarantor for an amount equal to the required deposit.

If a deposit is held longer than 18 months, the deposit will be recalculated

RULES AND REGULATIONS

14. Adjustment Relative to Erroneous Meter

If a meter is inaccurate in excess of 2%, upon required periodic testing or upon requested testing, additional tests shall be made at once to determine the average error of the meter, and the adjustments shall be made in the customer's water bills as follows:

- A. If test results on a customer's meter show an average error greater than 2 percent fast or slow, or if a customer has been incorrectly billed for any reason, the utility shall immediately determine the period during which the error has existed, and shall recompute and adjust the adjust the customer's bill to either provide a refund to the customer or collect an additional amount of revenue from the underbilled customer. The utility shall readjust the account based upon the period during which the error is known to have existed. If the period during which the error existed cannot be determined with reasonable precision, the time period shall be estimated using such data as elapsed time since the last meter test, if applicable, and historical usage data for the customer. If that data is not available, the average usage of similar customer loads shall be used for comparison purposes in calculating the time period. If the customer and the utility are unable to agree on an estimate of the time period during which the error existed, the commission shall determine the issue. In all instances of customer overbilling, the customer's account shall be credited or the overbilled amount refunded at the discretion of the customer within thirty (30) days after final meter test results. A utility shall not require customer repayment of any underbilling to be made over a period shorter than a period coextensive with the underbilling.
- B. If the result of such tests necessitates making a refund or

back billing a customer, the customer shall be notified in writing of the percentage of error, fast or slow, the date(s) of testing, and the amount of charge or credit to be shown on the next customer billing.

15. Meters

All meters shall be installed, renewed, and maintained at the expense of the District, and the District reserves the right to approve the size and type of meter used. It shall be the policy of the District to test each water meter pursuant to Public Service Commission Regulation 807 KAR 5:066. In addition, upon written request of any customer, the meter servicing such customer shall be tested by the District, pursuant to Public Service Regulation.

16. Failure of Water Meter

Where a meter is found to be in error, the customer's bill will be adjusted in accordance with Section 14 herein per Kentucky Public Service Commission Regulations. Where a meter has ceased to register, the District will estimate the monthly bill of the customer for the month that the meter is replaced. The estimated bill will be based upon the previous six month's usage.

17. Right of Access

The customer must agree to permit the District to lay, maintain, repair, or remove its water lines that are located on the customer's property with the right of ingress-and-egress over customer's property. The District's duly authorized representative and/or other duly authorized employee of the State Health Department bearing proper credentials and identification shall be permitted to enter upon all properties for the purpose of inspection, observation, measurement, sampling and testing in accordance with the provisions of these Rules and Regulations.

18. Interruption of Service

The District will use reasonable diligence in supplying water service, but shall not be liable for loss, injury, or damage to persons

or property resulting from interruptions in service, excessive or inadequate water pressure. The District does hereby explicitly state that its system is one for rural domestic consumption and that its allowance of connections to its system for fire protection whether by design or implication is only for such benefit as a customer may be able to derive from such connection.

The District system is not designed nor intended for use for fire protection in any manner whatsoever. Any customer using same for fire protection does so at his/her own full and sole responsibility.

The District shall in no event be held responsible for any claim made against it by reason of breaking of any mains or service pipes or by reason of any other interruption of the supply of water caused by the failure of machinery or stoppage for necessary repairs. No person shall be entitled to damages nor for any portion of a payment refunded for any interruption of service which in the opinion of the District may be deemed necessary.

The District shall make all reasonable efforts to eliminate interruption of service and when such interruption occurs will endeavor to restore service with the shortest possible delay. When the service is interrupted all consumers affected by such interruption will be notified in advance whenever it is possible to do so.

19. Backflow Preventors

Special services and fire connections shall have backflow preventors of a type approved by the District, installed at the cost of the customer or applicant for service.

20. Cross-Connection

Kentucky Department of Health, Kentucky Public Service Commission and these Rules and Regulations do hereby explicitly state that cross-connection of the District's system with any public service commission is hereby prohibited.

Name of Officer Title Address

P.S.C. Ky. No. 2Revised Sheet No. 12Cancelling P.S.C. Ky. No. 1Original Sheet No. 9DEWITT WATER DISTRICTRULES AND REGULATIONS

change or modify existing District owned equipment, mains or appurtenances. Same shall reimburse District for such changes at actual cost including appropriate legal, administrative, engineering and overhead costs.

22. Damage to District's Water System

No person shall maliciously, willfully, or negligently break, damage, destroy, uncover, deface, or tamper with any structure appurtenance, or equipment which is a part of the District's water works. Any person violating this provision shall be subject to immediate arrest and/or discontinuation of water service and shall pay the cost of repairing or replacing the pipe or appurtenance.

Any person, firm or organization involved in work around or near the District's distribution mains or appurtenances may request the District to indicate location of same. However, indication by the District of same does not relieve such person of complete responsibility and liability for any and all damages, liability and loss resulting from any act of such person or his assigns and/or agent.

. Additional Load

The service connection supplied by the District for each customer has a definite capacity, and no addition to the equipment or load connected thereto will be allowed except by consent of the District. Failure to give notice of additions or changes in load, and to obtain the District's consent for same, shall render the customer liable for any damage to any of the District's lines or equipment caused by the additional or changed installation.

24. Notice of Trouble

The customer shall notify the District immediately should the service be unsatisfactory for any reason, or should there be any defects, trouble or accidents affecting the supply of water.

25. Water Main Extension

Any person desiring an extension to the District's system shall

SECTION 9(1)

ISSUED BY Beatrice Bingham Chairperson BY: Shirley
Name of Officer Title PUBLIC SERVICE COMMISSION MANAGER Address

	Circulating	Non-Circulating
1 inch nominal size	150 feet	100 feet
1 1/2 inch nominal size	300 feet	200 feet
2 inch nominal size	500 feet	250 feet

In the case of rural water lines, where hydraulic studies indicate they can comply with Section 6(1) and can provide adequate flow of water to serve the peak requirements of customers, the above maximum extension lengths may be extended with approval of the commission.

(b) Fire protection. Specifications, location, installation, and the responsibility for the maintenance of fire hydrants, public and private fire protection facilities, connecting mains, and their ownership may be subject to negotiation between the utility and the applicant. Fire hydrants and public and private fire protection facilities shall be installed as required by the utility and when owned by the utility shall be subject to such conditions as the commission may impose, based upon the compensation received for this service.

(3) Transmission systems. The transmission pipe lines from sources of supply shall be designed to deliver in combination with related storage facilities and to the limits of the capacity of those sources of supply the maximum requirements of that portion of the system which is dependent upon such transmission pipe lines.

(4) Water supply requirements. The quantity of water delivered to the utility's distribution system from all source facilities shall be sufficient to supply adequately, dependably and safely the total reasonable requirements of its customers under maximum consumption, and shall be determined so as to maintain the specified pressures as required by Section 6(1).

(5) Materials. Metallic and non-metallic materials may be used separately and in combination to construct component parts of a water system including, but not limited to, conduits, pipes, couplings, caulking materials, protective linings and coatings, services, valves, hydrants, pumps, tanks and reservoirs, provided:

(a) The material shall have a reasonable useful service life.

(b) The material shall be capable of withstanding with ample safety factors the internal and external forces to which it may be subjected in service.

(c) The material shall not cause the deterioration of the potability of the water supply.

(d) Materials and equipment shall be so selected as to mitigate corrosion, electrolysis and deterioration.

Section 12. Extension of Service. (1) Normal extension. An extension of fifty (50) feet or less shall be made by a utility to its existing distribution main without charge for a prospective customer who shall apply for and contract to use service for one (1) year or more and provides a guarantee for such service.

(2) Other extensions:

(a) When an extension of the utility's main to serve an applicant or group of applicants amounts to more than fifty (50) feet per applicant, the utility may if not inconsistent with its filed tariff require the total cost of the excessive footage over fifty (50) feet per customer to be deposited with the utility by the applicant or the applicants, based on the average estimated cost per foot of the total extension.

(b) Each customer receiving service under such extension

will be reimbursed under the following plan: Each year for a period of not less than ten (10) years, which for the purpose of this rule shall be the refund period, the utility shall refund to the customer or customers who paid for the excessive footage the cost of fifty (50) feet of the extension in place for each additional customer connected during the year whose service line is directly connected to the extension installed and not to extensions or laterals therefrom, but in no case shall the total amount refunded exceed the amount paid the utility. After the end of the refund period, no refund will be required to be made.

(3) An applicant desiring an extension to a proposed real estate subdivision may be required to pay the entire cost of the extension. Each year for a period of not less than ten (10) years the utility shall refund to the applicant who paid for the extension a sum equal to the cost of fifty (50) feet of the extension installed for each additional customer connected during the year but in no case shall the total amount refunded exceed the amount paid to the utility. After the end of the refund period from the completion of the extension, no refund will be required to be made.

(4) Nothing contained herein shall be construed to prohibit the utility from making extensions under different arrangements provided such arrangements have been approved by the commission.

(5) Nothing contained herein shall be construed as to prohibit a utility from making at its expense greater extensions than herein prescribed, should its judgment so dictate, provided like free extensions are made to other customers under similar conditions.

(6) Upon complaint to and investigation by the commission a utility may be required to construct extensions greater than fifty (50) feet upon a finding by the commission that such extension is reasonable.

Section 13. Service Connections. (1) Ownership of service:

(a) Utility's responsibility. In urban areas with well-defined streets the utility shall furnish and install at its own expense for the purpose of connecting its distribution system to the customer's premises that portion of the service line from its main to and including the curb box, if curb box is used, otherwise to the curb stop. The curb stop may be installed at a convenient place between the property line and the curb. All services shall include a curb stop.

(b) Customer's responsibility. The customer shall furnish and lay the necessary pipe to make the connection from the curb stop to the place of consumption and shall keep the service line in good repair and in accordance with such reasonable requirements of the utility as may be incorporated in its rules and regulations.

(2) Location of service. The customer's service line shall extend to that point on the curb line easiest of access to the utility from its distribution system. When a reasonable doubt exists as to the proper location of the service line, the utility shall be consulted and its approval of the location secured.

Section 14. Measurement of Service. (1) Metering. All water sold by a utility shall be upon the basis of metered volume sales except that the utility may at its option provide flat rate or estimated service for the following:

(a) Temporary service where the water used can be readily estimated.

(b) Public and private fire protection service.

P.S.C. Ky. No. 2Revised Sheet No. 13Cancelling P.S.C. Ky. No. 1Original Sheet No. 10

DEWITT WATER DISTRICT

RULES AND REGULATIONS

request in writing, in a form approved by the District, for such extension.

The District shall construct water main extensions under the authority and procedure stipulated in Public Service Commission Regulation 807 KAR 5:006 and any extension made under this option shall be subject to refund as outlined in said regulation.

The applicant must execute a contract and agreement for line extension on form approved by the District.

Extensor applicant is hereby notified that all other rules, rates and regulations pertaining to fees applicable to size and type of service requested shall be paid in addition to cost of extension.

26. Complaints

Complaints may be made to the operator of the system whose decision may be appealed to the District Managers. Such appeal shall be in writing within ten days of date of decision by operator, stating the nature of the complaint and supporting evidence. Decisions of the District's managers or operator may be brought before the Public Service Commission in accordance with 807 KAR 5. The Public Service Commission toll free number is 1-800-772-4636.

27. Sale of Water

Water furnished by the District may be used for domestic consumption by the customer's household or business, subject to special service agreements. The customer shall not sell, donate, give or allow use of such water to any authorized or unauthorized party.

28. Special Charges

Special charges may be assessed to the customer for returned checks, meter rereads, and meter tests at the specified charges shown below:

A. A charge of \$20.00 will be made for each check returned to the District by the bank.

B. A charge of \$20.00 will be made to reread a meter at the customer's request unless such reread reveals that the initial

reading was erroneous. No charge shall be made if the initial reading was erroneous.

- C. A charge of \$15.00 will be made for a meter test when such test is made at the customer's request unless the meter is found to be faulty. No charge shall be made for a faulty meter, but appropriate adjustments shall be made in accordance with Section 14 of these Rules and Regulations.

29. Special User Agreements for Non-Standard Service

Each applicant for non-standard service shall execute to the District an agreement for special service.

30. Fire Hydrants

Customers desiring installation of a fire hydrant may contract with the District for installation at the customer's expense.

A monthly charge for a fire hydrant is \$15.00.

Water mains not designed to carry fire-flows shall not have fire hydrants connected to them. The District is not responsible for, nor does it guarantee, any minimum pressure at these hydrants, other than the minimum pressure required by the Public Service Commission for distribution lines. Any damage to the distribution lines, resulting from excessive pumping pressure applied by any fire fighting unit will be the liability of that unit.

SCHEDULE OF SPECIAL SERVICE CHARGES

The following charges for special services shall be made:

1. Service Reconnection Charge A charge of \$20.00 shall be made for all service reconnections made during regular working hours, except that there shall be no connection charges made for service on the original installation of facilities.
2. Meter Reading Recheck Charge. A charge of: \$20.00 shall be made for a trip to recheck a meter reading when the customer requests the meter to be rechecked for a correct reading and meter was not missread.
3. Meter Test. Upon request and payment of \$15.00 the customer may have his meter tested provided request by the customer is not more frequent than once each twelve months. If such test shows the meter to be more than two percent fast, a refund of \$15.00 charge shall be made and the bill adjusted accordingly. If the periodic testing requirement of 807 KAR 5 has not been met for the meter tested, no charge will be made for the test regardless of results of the test.
4. PSC Meter Test Complaint. Any customer of the District may request a meter test by written application to the Kentucky Public Service Commission.
5. Contribution in Aid of Construction. The established contribution fee is based on the size of the installed metering equipment as noted below:

DEWITT WATER DISTRICT

RULES AND REGULATIONS

MONITORING OF CUSTOMER USAGE

At least once annually the District will monitor the usage of each customer according to the following procedure:

1. The customer's annual usage for the most recent 12-month period will be compared with the annual usage for the 12 months immediately preceding that period.
2. If the annual usage for the two periods are substantially the same or if any difference is known to be attributed to unique circumstances, such as unusual weather conditions, common to all customers no further review will be done.
3. If the annual usages differ by twenty percent or more and cannot be attributed to a readily identified common cause, the District will compare the customer's monthly usage records for the 12-month period with the monthly usage for the same months of the preceding year.
4. If the cause for the usage deviation cannot be determined from analysis of the customer's meter reading and billing records, the District will contact the customer by telephone or in writing to determine whether there have been changes such as different number of household members or work staff, additional or different appliances, changes in business volume, or known leaks in the customer's service line.
5. Where the deviation is not otherwise explained, the District will test the customer's meter to determine whether it shows an average error greater than 2 percent fast or slow.
6. The District will notify the customers of the investigation, its findings, and any refunds or backbilling in accordance with 807 KAR 5:006, Section 10(4) and (5).

PUBLIC SERVICE COMMISSION
OF KENTUCKY

In addition to the annual monitoring, the District will immediately investigate usage deviations brought to its attention as a result of its on-going meter reading or billing processes or customer inquiry.

SOCIAL SECURITY OR OTHER I.D. NO. _____

Application for water service is accepted by and between the undersigned and the _____ Water District with the following stipulations and agreements:

1. Public Service Commission rules and regulations as set forth in 807 KAR 5 and Kentucky Department for Natural Resources, Division of Water standards and laws must be observed and adhered to, and may be viewed upon request by the applicant.

2. The applicant agrees to pay a \$ _____ meter deposit, which will be refunded with interest when the applicant ceases to be a water customer and all accounts are paid in full. In case of a new service a \$ _____ tap fee is paid in advance. Tap fees are not refundable.

3. One household may be served by one meter. The District reserves the right to terminate service at the meter if addition of other houses or mobile homes is suspected.

4. Water District employees, possessing proper identification have right of egress and ingress for meter reading, maintenance and repair activities as they are warranted.

5. Water bills are due to be paid between the first and the tenth of each month at the District office. If not paid by the tenth, a ten percent penalty is added to the amount due. If not paid in full by the twentieth, service is subject for disconnection. An additional meter deposit may be required and a service charge must be paid before service may be restored.

6. The water customer is responsible for water service lines from the meter to the dwelling. Installation, repair, and water loss are the responsibility of the customer.

7. Customer service lines and connections must be inspected by Water District personnel to insure against cross-connections and inadequate materials for drinking water.

Section 1. Purpose. The purpose of this plan is to provide for the declaration of official phases of water supply shortages and the implementation of voluntary and mandatory water conservation measures throughout the DEWITT WATER DISTRICT in the event a shortage is declared.

Section 2. Definitions. These terms are applicable only for this plan unless specifically noted.

- (a) "Customer" shall mean any person or entity using water for any purpose from the DEWITT WATER DISTRICT water distribution system and for which either a regular charge is made or, in the case of bulk sales, a cash charge is made at the site of delivery.
- (b) "Raw Water Supplies" shall mean all water potentially available to persons in the DEWITT WATER DISTRICT.
- (c) "Treated Water" shall mean water that has been introduced by the DEWITT WATER DISTRICT into its water distribution system, including water offered for sale. Use of treated water are classified as follows:

(CLASS 1) Essential Water Uses :

The following uses of water, listed by site or user type, are essential.

Domestic:

Water necessary to sustain human life and the lives of domestic pets, and to maintain minimum standards of hygiene and sanitation.

Health Care Facilities:

Patient care and rehabilitation, including related filling and operation of swimming pools.

Water Hauling:

Sale of domestic use where not reasonably available elsewhere.

Public Use:

Firefighting, Health and public protection purposes, if specifically approved by health officials.

FOR THE PUBLIC SERVICE COMMISSION

(Class 2) Socially or Economically Important Uses:

The following uses of water, listed by site or user type, are socially or economically important.

Domestic: Personal, in-house water use including kitchen, bathroom and laundry.

Water Hauling: Non-Domestic, when other sources are not reasonably available elsewhere.

Commercial and Civic Use:

Commercial car and truck washes,

Laundromats

Restaurants, clubs and eating places.

Schools, churches, motels/hotels and similar commercial establishments.

Outdoor Non-Commercial Watering:

Minimal watering of vegetable gardens,

Minimal watering of trees where necessary to preserve them.

Outdoor Commercial or Public Watering (using conservation methods and when other sources of water are not available or feasible to use):

Agricultural irrigation for the production of food and fiber or the maintenance of livestock,

Watering by arboretums and public gardens of national, state, regional or community significance where necessary to preserve specimens,

Watering by commercial nurseries at a minimum level necessary to maintain stock,

Watering at a minimum rate necessary to establish or maintain revegetation or landscape plantings required pursuant to law or regulation,

PUBLIC SERVICE COMMISSION

Air Conditioning:

Refilling for startup at the beginning of the cooling season,

Makeup of water during the cooling season,

Refilling specifically approved by health officials where the system has been drained for health protection or repair services.

(Class 3) Non-Essential Uses:

Any waste or water, as defined herein, is not-essential. The following uses of water, listed by site or user type, are non-essential.

Public Use:

Use of fire hydrants (excluding Class 1 and Class 2 used), including uses of sprinkler caps, testing fire apparatus and fire department drills,

Flushing of sewers and hydrants except as needed to ensure public health and safety as approved by health officials.

Commercial and Civic Use:

Serving water in restaurants, clubs, or eating places, except by customer request,

SECTION 9 (1)

Refilling cooling towers after draining.

BY: Jordan C. Neal
FOR THE PUBLIC SERVICE COMMISSION

- (D) "Base Entitlement" shall mean, the monthly usage for a customer during the same month of the preceding calendar year, or the average per customer usage for each class of service during the same month of the preceding year.
- (e) "Curtailed entitlement" shall mean the monthly usage for a customer after any curtailment percentage has been applied.
- (f) "Curtailment" shall mean the reduction in entitlement by some percentage to meet anticipated water shortages.
- (g) **Water Shortage Response Phases:**
- "Advisory" shall mean that conditions exist which indicate the potential for serious raw or treated water supply shortages.
- "Alert" shall mean the raw or treated water supplies are consistently below seasonal averages, and if they continue to decline, may not be adequate to meet normal needs.
- "Emergency" shall mean that raw or treated water supplies are below the level necessary to meet normal needs and that serious shortages exist in the area.
- (h) "Rationing" shall mean that procedures must be established to provide for the equitable distribution of critically-limited raw or treated water supplies, in order to balance demand and limited available supplies, and to assure that sufficient water is available to preserve public health and safety.

Section 3. Applicability. The provisions of this plan shall apply to all retail and wholesale customers of the DEWITT WATER DISTRICT. When implemented, this plan becomes DEWITT WATER DISTRICT'S water shortage response regulation.

Section 4. Entitlements. Entitlements shall be established for each customer by adjusting the base entitlement to reflect any known change in usage pattern.

Section 5. Determination of Water Shortage. As DWWD buys some of its water from, the City of Corbin, and the East Knox County Utility District, both should have input into this Water Shortage Plan. Water supply and usage shall be monitored on a continuous basis. Unrestricted demand shall be projected from past records and adjusted for changes such as new developments and weather conditions on a regular basis. (NOTE: A sample calculation page is attached as Appendix A to assist in determining overall water levels. It is important that accurate water measurements be used.) Water shortages generally occur for two reasons, a reduction in available supplies or a system failure. Each of these has a distinct influence on the nature and duration of the conservation program implemented. Official declaration of a water shortage stage and implementation of the measures necessary to curtail water shall be approved by the BOARD OF COMMISSIONERS

Section 6. Term of Water Shortage Declaration.

Any Water Shortage declaration shall remain in effect until water supplies of service conditions have returned to normal. A final determination as to terminating a water shortage declaration shall be made by the BOARD OF COMMISSIONERS.

Section 7. Water Shortage Stage, Criteria, Conservation and Curtailment Measures.

A. Advisory Stage:

(1) Criteria: A water advisory shall be declared when the amount of treated water or raw water available for treatment is projected to be up to TEN (10) percent below demand, or there are periods of low water pressure in one or more areas of the distribution system due to system failure or inadequacies. Or if the State Division of Water issues a Water Shortage Watch which includes the Cumberland River from which the EKCWD draws water, or the area effecting the City of Corbin.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

JAN 19 1996

PURSUANT TO 807 KAR 5.011,
SECTION 9 (1)

BY: Quinton C. Neal
FOR THE PUBLIC SERVICE COMMISSION

(2) Conservation and Curtailment Measures:

- (a) Declare a Water Shortage Advisory.
- (b) Provide proper notice to all customers and to all local news media.
- (c) Eliminate all water leaks.
- (d) Request voluntary conservation of all non-essential (Class 3) water use.
- (e) Request wholesale customers also issue request for voluntary conservation by their customers of all not-essential (Class 3) water use.

B. Alert Stage:

(1) Criteria: A water alert shall be declared when the amount of treated water available is projected to be up to TEN (10) percent below demand, or raw water supplies are consistently below seasonal averages and if they continue to decline, may not be adequate to meet normal needs. That include notices from the City of Corbin and the East Knox County Water District.

(2) Conservation and Curtailments Measures.

- (a) Declare Water Shortage Alert.
- (b) Provide proper notice to all customers and to all local news media.
- (c) Eliminate all water leaks.
- (d) Prohibit all not-essential (class 3) water uses.
- (e) Curtail entitlements to all customers by the same percentage as the projected shortage.
- (f) Begin billing all customers water usage in excess of curtailed entitlement at the normal rate of \$10.75 / 1000 gallons plus an excess usage charge of \$12.00 per 1,000 gallons.

PUBLIC SERVICE COMMISSION

PURSUANT TO 807 KAR 5011.
SECTION 9 (1)

BY: Andrew C. Neal
FOR THE PUBLIC SERVICE COMMISSION

C. Emergency Stage:

1. Criteria: A water Emergency shall be declared when the amount of treated water available is projected to be up to five (5.0) percent below demand, or there are periods of no water in one or more areas of the distribution system due to low water supply or raw water supplies below the level necessary to meet normal needs. Or conditions as imposed by the City of Corbin or the East Knox County Water District.

2. Conservation and Curtailment Measures:

- (a) Declare Water Shortage Emergency.
- (b) Provide proper notice to all customers and to all local new media.
- (c) Eliminate all water leaks.
- (d) Prohibit all (class 3)used of water.
- (e) Prohibit all (class 2) used of water except domestic uses for kitchens, bathrooms and laundries.
- (f) Curtail all commercial and industrial entitlements (except health care facilities by one hundred (100) percent.
- (g) Curtail residential entitlements by the same percentage as the projected shortage.
- (h) Curtail entitlements to all wholesale customers by the same percentage as the projected shortage.
- (I) Begin billing all customer water usage in excess of curtailed entitlement at the normal rate plus an excess usage charge of \$17.00 per 1,000 gallons.

PURSUANT TO 807 KAR 5.011,
SECTION 9 (1)

(c) Eliminate all water leaks.

BY: James C. Neal
FOR THE PUBLIC SERVICE COMMISSION

(d) Prohibit all (Class 3) and (Class 2) uses of water.

(e) Curtail all commercial and industrial entitlement (except health care facilities) by one-hundred (100) percent.

(f) Curtail all residential and wholesale entitlements by the same percentage as the projected shortage.

(g) Implement service interruptions to portions of system in accordance with approved published schedule. The schedule shall be provided to all local media.

(h) Begin billing customer water usage in excess of curtailment entitlement at the normal rate plus an excess usage charge of \$ 24.00 per 1,000 gallons.

Section 8. Enforcement of Water Restriction.

Any person who violates the provisions of this plan, who fails to carry out the duties and responsibilities imposed by this plan, or who impedes or interferes with any action undertaken or ordered pursuant to this plan shall be subject to following:

(a) If the utility officials charged with implementation and enforcement of this plan learns of any violation of any water use restriction imposed, a written notice of the violation shall be affixed to the property where the violation occurred and mailed to the customer of record. Said notice shall describe the violation and order that it be corrected, cured, or abated immediately or within forty-eight (48) hours.

(b) The notice will inform the customer of his or her right to appeal by requesting a hearing before the utility's designee. If a hearing is requested by the customer, he or she shall be given full opportunity to be heard before termination. The governing body shall make finding of fact and decide whether service should continue or terminated.

(c) Any customer whose water service is terminated for violating provisions of this water curtailment plan shall be subject to the approved reconnection fee prior to reconnection of service.

(d) The excess usage charge billing provisions of this plan shall not be put in effect if a county or city ordinance containing penalty provisions is in effect to assist enforcement of this plan.

Section 9. Request for Exception.

(a) Exception to water use restrictions: If compliance with any curtailment measure authorized herein would cause a customer to bear extraordinary hardship, that individual or entity may apply to the BOARD OF COMMISSIONERS for an exception. For these purposes, "extraordinary hardship" shall be defined as a condition which may threaten health and safety, or cause property or economic losses, each of which must be shown to be substantially more severe than the sacrifices borne by other users. If extraordinary hardship is found to exist, then an exception shall be granted and a written waiver issued to the customer. If an appeal is made, water service shall be continued until a decision is announced. Any person aggrieved by the decision may file a complaint with the Public Service Commission.

(b) Exception to curtailment surcharge: Exceptions to excess use charges shall not be considered or granted.

Section 10. Severability. If any provision of this plan is declared invalid by the courts, the remainder of the plan and its applicability to other persons and circumstances shall not be affected by that declaration.

Section 11. Effective Date. This plan shall take effect immediately upon approval by the Public Service Commission.

WATER SHORTAGE RESPONSE PLAN

Dewitt Water District

RECEIVED
JUN 18 2001
PUBLIC SERVICE
COMMISSION

Section 1. Purpose. The purpose of this Plan is to provide for the declaration of official phases of water supply shortages and the implementation of voluntary and mandatory water conservation measures throughout the Dewitt Water District in the event a shortage is declared.

Section 2. Definitions. These terms are applicable only for this Plan unless specifically noted.

- (a) "Customer" shall mean any person or entity using water for any purpose from the Dewitt Water District water distribution system and for which either a regular charge is made or, in the case of bulk sales, a cash charge is made at the site of delivery.
- (b) "Raw Water Supplies" shall mean all water potentially available to persons in the Dewitt Water District.
- (c) "Treated Water" shall mean water that has been introduced by the Dewitt Water District into its water distribution system, including water offered for sale. Uses of treated water are classified as follows:

Essential Water Uses (Class 1):

The following uses of water, listed by site or user type, are essential.

Domestic:

- water necessary to sustain human life and the lives of domestic pets, and to maintain minimum standards of hygiene and sanitation.

Health Care Facilities:

PUBLIC SERVICE COMMISSION
OF KENTUCKY -
EFFECTIVE

patient care and rehabilitation, including related filling and operation of swimming pools.

Water Hauling:

JUL 18 2001

- sales of domestic use where not reasonably available elsewhere.

PURSUANT TO 807 KAR 5.011.

SECTION 9(1)

BY: Stephan B. Butcher Public Use:

SECRETARY OF THE COMMISSION

- firefighting,

- health and public protection purposes, if specifically approved by health officials.

Socially or Economically Important Uses (Class 2):

The following uses of water, listed by site or user type, are socially or economically important.

Domestic:

- personal, in-house water use including kitchen, bathroom and laundry.

Water Hauling:

- non-domestic, when other sources are not reasonably available elsewhere.

Commercial and Civic Use:

- commercial car and truck washes,
- laundromats
- restaurants, clubs and eating places.
- schools, churches, motels/hotels and similar commercial establishments.

Outdoor Non-Commercial Watering:

- minimal watering of vegetable gardens,
- minimal watering of trees where necessary to preserve them.

Outdoor Commercial or Public Watering (using conservation methods and when other sources of water are not available or feasible to use):

- agricultural irrigation for the production of food and fiber or the maintenance of livestock,

PUBLIC SERVICE COMMISSION

SECTION 9(1)-

BY Stephan D. Bell
SECRETARY OF THE COMMISSION

watering by arboretums and public gardens of national, state, regional or community significance where necessary to preserve specimens,

watering by commercial nurseries at a minimum level necessary to maintain stock,

watering at a minimum rate necessary to establish or maintain revegetation or landscape plantings required pursuant to law or regulation,

- watering of woody plants where necessary to preserve them,
- minimal watering of golf course greens.

Recreational:

- operation of municipal swimming pools and residential pools that serve more than 25 dwelling units.

Air Conditioning:

- refilling for startup at the beginning of the cooling season,
- makeup of water during the cooling season,
- refilling specifically approved by health officials where the system has been drained for health protection or repair services.

Non-Essential Uses (Class 3):

Any waste of water, as defined herein, is non-essential. The following uses of water, listed by site or user type, are non-essential.

Public Use:

- use of fire hydrants (excluding Class 1 and Class 2 uses), including use of sprinkler caps, testing fire apparatus and fire department drills,
- flushing of sewers and hydrants except as needed to ensure public health and safety as approved by health officials.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

Commercial and Civic Use:

- serving water in restaurants, clubs, or eating places, except by customer request,
- failure to repair a controllable leak,

JUL 18 2001

PURSUANT TO 807 KAR 5.011,
SECTION 9(1)-

BY: Stephan D. Bell
SECRETARY OF THE COMMISSION

- increasing water levels in scenic and recreational ponds and lakes, except for the minimum amount required to support fish and wildlife.

Ornamental Purposes:

- fountains, reflecting pools and artificial waterfalls.

Outdoor Non-Commercial Watering:

- - use of water for dirt control or compaction,
- watering of annual or non-woody plants, lawns, parks, golf course fairways, playing fields and other recreational areas,
- washing sidewalks, walkways, driveways, parking lots, tennis courts or other hard-surface areas,
- washing down buildings or structures for purposes other than immediate fire protection,
- flushing gutters or permitting water to run or accumulate in any gutter or street.

Outdoor Commercial or Public Watering:

- expanding nursery facilities, placing new irrigated agricultural land in production, or planting of landscaping except when required by a site design review process,
- use of water for dirt control or compaction,
- watering of lawns, parks, golf course fairways, playing fields and other recreational areas,
- washing sidewalks, walkways, driveways, parking lots, tennis courts or other hard-surface areas,
- washing down buildings or structures for purposes other than immediate fire protection,

SECTION 9(1) -

BY Stephan D. Bell
SECRETARY OF THE COMMISSION

flushing gutters or permitting water to run or accumulate in any gutter or street.

Recreational uses other than those specified in Class 2.

Non-commercial washing of motor and other vehicles.

Air Conditioning (see also Class 2 purposes):

- refilling cooling towers after draining.
- (d) "Base Entitlement" shall mean the monthly usage for a customer during the same month of the preceding calendar year or the average per customer usage for each class of service during the same month of the preceding year.
- (e) "Curtailed Entitlement" shall mean the monthly usage for a customer after any curtailment percentage has been applied.

(f) "Curtailment" shall mean the reduction in entitlement by some percentage to meet anticipated water shortages.

(g) Water Shortage Response Phases:

"Advisory" shall mean that conditions exist which indicate the potential for serious raw or treated water supply shortages.

"Alert" shall mean the raw or treated water supplies are consistently below seasonal averages, and if they continue to decline, may not be adequate to meet normal needs.

"Emergency" shall mean that raw or treated water supplies are below the level necessary to meet normal needs and that serious shortages exist in the area.

(h) "Rationing" shall mean that procedures must be established to provide for the equitable distribution of critically-limited raw or treated water supplies, in order to balance demand and limited available supplies, and to assure that sufficient water is available to preserve public health and safety.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

PURSUANT TO 807 KAR 5.01

SECTION 9(1)

y. Stephan D. Bell
SECRETARY OF THE COMMISSION

Section 3. Applicability. The provisions of this Plan shall apply to all retail and wholesale customers of the Dewitt Water District. When implemented, this Plan becomes Dewitt Water District Water Shortage Response Regulation.

Section 4. Entitlements. Entitlements shall be established for each customer by adjusting the base entitlement to reflect any known change in usage pattern.

Section 5. Determination of Water Shortage. Water supply and usage shall be monitored on a continuous basis. Unrestricted demand shall be projected from past records and adjusted for changes such as new developments and weather conditions on a regular basis. (Note: A sample calculation page is attached as Appendix A to assist in determining overall water levels. It is important that accurate water measurements be used.) Water shortages generally occur for two reasons, a reduction in available supplies or a system failure. Each of these has a distinct influence on the nature and duration of the conservation program implemented. Official declaration of a water shortage stage and implementation of the measures necessary to curtail water use shall be approved by the Knox Co. Fiscal Court and The Dewitt Water District.

Section 6. Term of Water Shortage Declaration. Any water shortage declaration shall remain in effect until water supplies of service conditions have returned to normal. A final determination as to terminating a water shortage declaration shall be made by the Chairman of Dewitt Water District.

Section 7. Water Shortage Stage, Criteria, Conservation and Curtailment Measures.

A. Advisory Stage:

- (1) Criteria: A water advisory shall be declared when the amount of treated water or raw water available for treatment is projected to be up to 5% below demand, or there are periods of low water pressure in one or more areas of the distribution system due to system failure or inadequacies or the State Division of Water issues a Water Shortage Watch which includes the areas from which the Dewitt Water District draws water. (Note: Additional conditions may be added based on local conditions.)
- (2) Conservation and Curtailment Measures:
 - (a) Declare a Water Shortage Advisory.
 - (b) Provide proper notice to all customers and to all local news media.
 - (c) Eliminate all water leaks.
 - (d) Request voluntary conservation of all non-essential (Class 3) water use.
 - (e) Request wholesale customers also issue request for voluntary conservation by their customers of all non-essential (Class 3) water use.

B. Alert Stage:

- (1) Criteria: A water alert shall be declared when the amount of treated water available is projected to be up to 10% below demand, or raw water supplies are consistently below seasonal averages and if they continue to decline, may not be adequate to meet normal needs. (Note: Additional conditions may be added based on local conditions.)

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

(2) Conservation and Curtailment Measures:

- (a) Declare Water Shortage Alert.
- (b) Provide proper notice to all customers and to all local news media.
- (c) Eliminate all water leaks.
- (d) Prohibit all non-essential (Class 3) water uses.

SECTION 9(1)

BY Stephan B. Bell
SECRETARY OF THE COMMISSION

(e) Curtail entitlements to all customers by the same percentage as the projected shortage.

(f) Begin billing all customer water usage in excess of curtailed entitlement at the normal rate plus an excess usage charge of \$3.00 per 1,000 gallons.

C. Emergency Stage:

1. Criteria: A Water Emergency shall be declared when the amount of treated water available is projected to be up to 20% below demand, or there are periods of no water in one or more areas of the distribution system due to low water supply or raw water supplies below the level necessary to meet normal needs. (Note: Additional conditions may be added based on local conditions.)

2. Conservation and Curtailment Measures:

(a) Declare Water Shortage Emergency.

(b) Provide proper notice to all customers and to all local news media.

(c) Eliminate all water leaks.

(d) Prohibit all Class 3 uses of water.

(e) Prohibit all Class 2 uses of water except Domestic uses for kitchens, bathrooms and laundries.

(f) Curtail all commercial and industrial entitlements (except Health Care Facilities) by 100%.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

(g) Curtail Residential entitlements by the same percentage as the projected shortage.

SECTION 9(1)

BY: Stephan D. Bell
SECRETARY OF THE COMMISSION

(i) Begin billing all customer water usage in excess of curtailed entitlement at the normal rate plus an excess usage charge of \$2.00 per 1,000 gallons.

D. Rationing Stage:

1. Criteria: Treated water available is greater than 40% below demand or raw water supplies are below

- the level necessary to meet essential needs, and in the opinion of Dewitt Water District mandatory rationing is required to insure adequate water is available to maintain public health and safety.

2. Conservation and Curtailment Measures:

- (a) Declare Water Shortage Rationing.
- (b) Provide proper notice to all customers and to all local news media.
- (c) Eliminate all water leaks.
- (d) Prohibit all Class 3 and Class 2 uses of water.
- (e) Curtail all commercial and industrial entitlement (except Health Care Facilities) by 100%.

PURSUANT TO 807 KAR 50.01(h)
SECTION 9(1)
BY Stephan O. Bell
SECRETARY OF THE COMMISSION

Begin billing customer water usage in excess of curtailment entitlement at the normal rate plus an excess usage charge of \$15.00 per 1,000 gallons.

Section 8. Enforcement of Water Restriction. Any person who violates the provisions of this Plan, who fails to carry out the duties and responsibilities imposed by this Plan, or who impedes or interferes with any action undertaken or ordered pursuant to this Plan shall be subject to the following:

- (a) If the utility official charged with implementation and enforcement of this Plan learns of any violation of any water use restriction imposed, a written notice of the violation shall be affixed to the property where the violation occurred and mailed to the customer of record. Said notice shall describe the violation and order that it be corrected, cured, or abated immediately or within 48 hours.
- (b) The notice will inform the customer of his or her right to appeal by requesting a hearing before the utility's designee. If a hearing is requested by the customer, he or she shall be given full opportunity to be heard

before termination. The governing body shall make findings of fact and decide whether service should continue or terminate.

- (c) Any customer whose water service is terminated for violating provisions of this water curtailment plan shall be subject to the approved reconnection fee prior to reconnection of service.
- (d) The excess usage charge billing provisions of this Plan shall not be put in effect if a county or city ordinance containing penalty provisions is in effect to assist enforcement of this Plan.

Section 9. Request for Exception.

(a) Exception to water use restrictions: If compliance with any curtailment measure authorized herein would cause a customer to bear extraordinary hardship, that individual or entity may apply to the Dewitt Water District for an exception. For these purposes, "extraordinary hardship" shall be defined as a condition which may threaten health and safety, or cause property or economic losses, each of which must be shown to be substantially more severe than the sacrifices borne by other users. If extraordinary hardship is found to exist, then an exception shall be granted and a written waiver issued to the customer. If an appeal is made, water service shall be continued until a decision is announced. Any person aggrieved by the decision may file a complaint with the Public Service Commission.

- (b) Exception to curtailment surcharge: Exceptions to excess use charges shall not be considered or granted.

Section 10. Severability. If any provision of this Plan is declared invalid by the courts, the remainder of the Plan and its applicability to other persons and circumstances shall not be affected by that declaration.
